

THE 5th
SMART CITY ASIA

07-09 Oct 2026 VEC, Hanoi, Vietnam

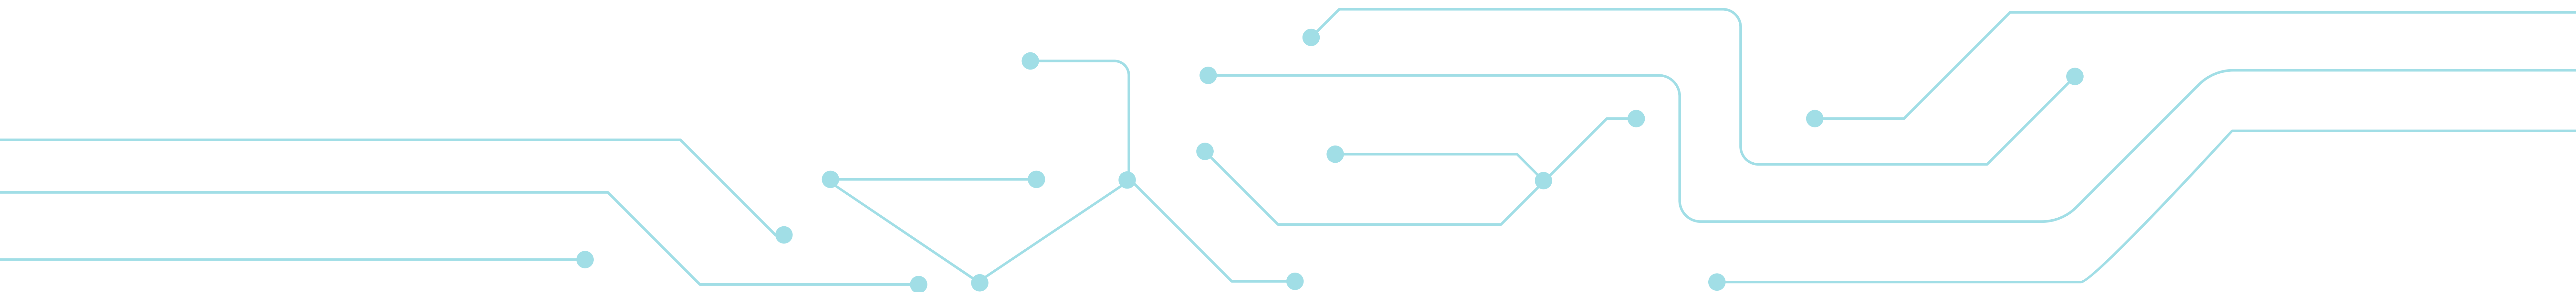

SCA 2026

WHERE SMART LIVING MEETS TOMORROW'S TECHNOLOGY

Smart City Asia 2026 is where the future of urban living converges with cutting-edge technology. This premier event in Southeast Asia offers a global stage for showcasing the latest innovations in smart mobility, energy management, public safety, sustainability, and intelligent living.

As Asia rapidly urbanizes and embraces digital transformation, it has become a dynamic hub for smart city solutions. From IoT and AI to big data and 5G technologies, Smart City Asia brings together the brightest minds from industry leaders, tech pioneers, and policymakers, driving forward-thinking initiatives that will shape tomorrow's cities. With strong government support and an increasing demand for sustainable urban development, this event provides unmatched opportunities for international companies to collaborate and enter new markets.

Join us at Smart City Asia 2026 to discover new partnerships, ignite innovation, and be part of building the future of smart, sustainable cities.

Asia's Leading Smart City Business Platform

Smart City Asia is a next-gen business platform driving innovation in urban technology and sustainable development across Asia and beyond.

Worldwide

Connecting global smart city pioneers, solution providers, and urban innovators, Smart City Asia serves as an international hub for cross-border collaboration and cutting-edge ideas

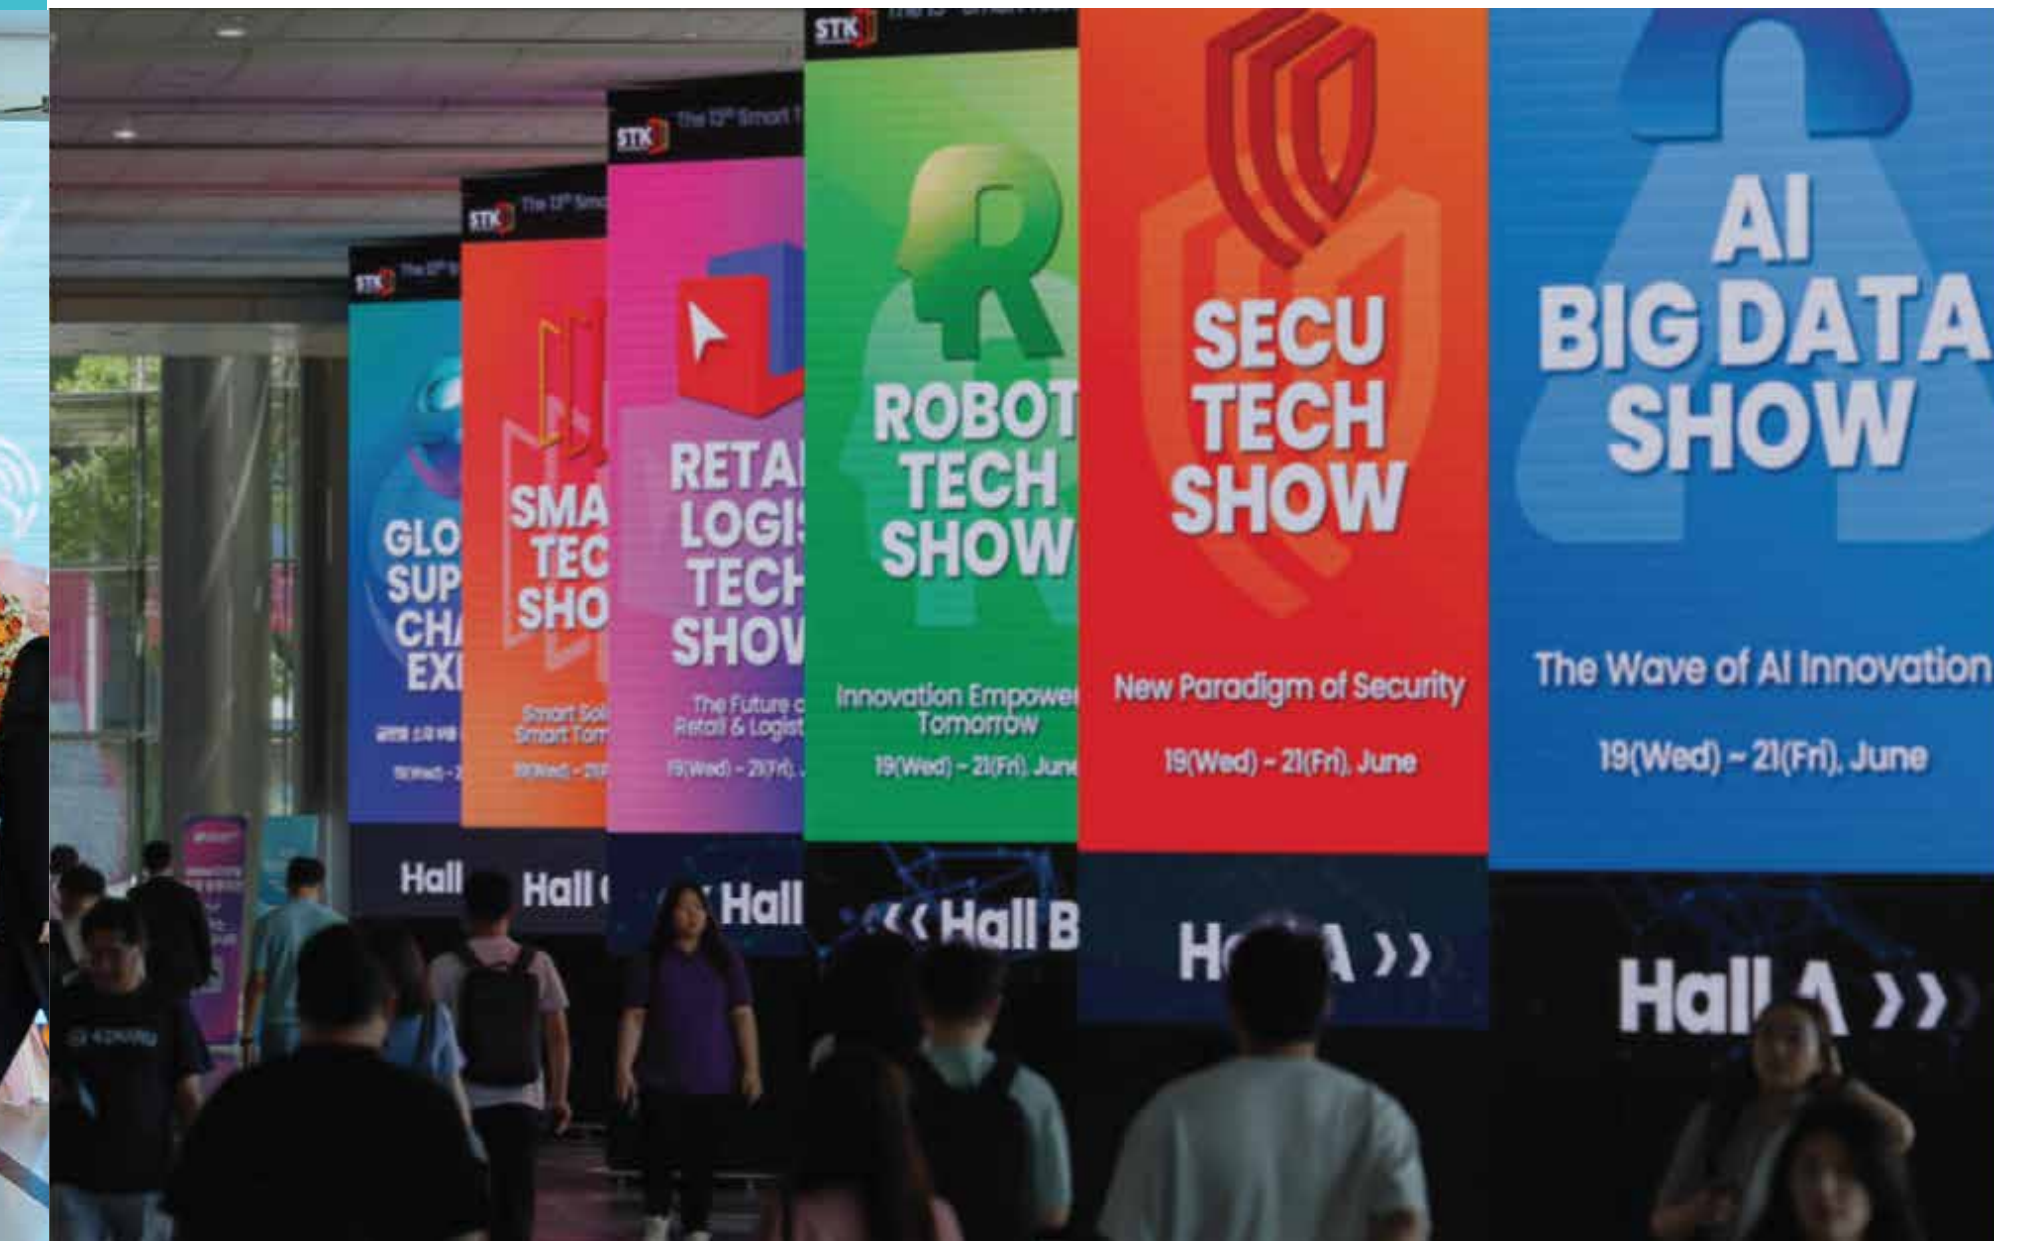

Enterprise

Backed by government agencies and industry associations, the event empowers public and private sector leaders to forge strategic partnerships and unlock real business opportunities.

Next-gen

From IoT and AI to mobility, energy, and sustainable infrastructure, Smart City Asia showcases transformative technologies shaping the cities of tomorrow.
